### DETAILED ACTION

1. Applicant's arguments and amendments have been fully and carefully considered. Applicant's argument over the 103(a) rejection over Reed et al. is persuasive. Applicant's claims are free over the prior art.
2. Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. In claim 1, applicant recites "...splitting said plurality of jets within the gas flow comprising hydrocarbons in said combustion chamber..." Applicant is directed to note the figure and the applicant's own arguments, and amend the claim to read, --splitting the hydrocarbon flow so that the flow contacts only one oxygen jet in said combustion chamber--. Applicant has already recites that there are a plurality of jets being spaced from each other. It is the flow of hydrocarbon, which is split so that only one oxygen jet contacts the hydrocarbon. Suitable correction is required.
3. Claims 2-4 are objected to as being dependent upon a rejected base claim.
4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 1764

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
